

Community Defined Best Practices for Latino Communities: Prevention, Treatment and Wellness

FRIDAY, MAY 10, 2024
HILTON, LOS ANGELES/SAN GABRIEL

Honoring Congresswoman

Grace F. Napolitano

31st District of California

DESCRIPTION:

We know that disparities in access to health care are significant in Latino communities for more than two decades, leading to lower utilization of services and poor quality care. We believe the topics are relevant and important to find out clinical interventions that are cultural and linguistically appropriate. To address this issue, we have invited speakers to share their frameworks, experiences and commitments related to Prevention, Treatment and Wellness. This conference offers a forum to stimulate open learning and dialogue on the needs of Latino communities, and how we, as a community of providers, can work together to address those needs.
